📄 STANDARD OPERATING PROCEDURES

Admin Quick Operational SOPs

Strict step-by-step guidance for administrators to resolve critical daily situations swiftly and in full clinical compliance.

01 **CRITICAL EMERGENCY**

Active SOS Crisis Alert Protocol

🕒 SLA Target: < 30s Action SLA

1 **Immediate Alarm Acknowledgment:** Navigate to `/sos-alerts` immediately upon audible high-priority alert.

2 **Coordinate & Proximity Scan:** Verify patient GPS coordinates, attending caregiver status, and primary family contact.

3 **Paramedic & Police Escalation:** Click "Dispatch Emergency Paramedics" to transmit live location to nearest partner hospital.

4 **Telephonic Confirmation & Closure:** Mark as "Resolved" only after direct telephonic family confirmation and incident log submission.

🔑 Open SOS Desk →

02 **WORKFORCE ONBOARDING**

Caregiver 5-Point KYC Approval

🕒 SLA Target: < 2h Verification SLA

1 **Document Integrity Check:** Open `/caregiver-verification` to review Aadhaar UID and Police NOC clearance.

2 **Accreditation Validation:** Cross-reference nursing council degree, elder care certificate, and past employment history.

3 **Skill Tier Designation:** Assign initial qualification tier (General Attendant, Senior Nurse, ICU Specialist, Dementia Care).

4 **1-Click Activation:** Click "Approve & Activate" to immediately authorize shifts on the Caretaker Mobile App.

🕒 Open KYC Desk →

03 **WORKFORCE DISPATCH**

1-Click Standby Shift Reassignment

🕒 SLA Target: < 60s Reassignment SLA

1 **Delay or Cancellation Detection:** When a caregiver is delayed >15m or reports sick, navigate to `/replacements`.

2 **Proximity Candidate Review:** System displays top 3 nearest verified caretakers with matching clinical skill tier.

3 **Instant Shift Handover:** Click "Assign Replacement" — patient & new caregiver receive instant push notifications.

4 **Live Arrival Tracking:** Monitor replacement caregiver arrival progress on the `/live-tracking` radar HUD.

🔄 Open Replacements →

04 **FINANCIAL GOVERNANCE**

Patient Dispute & Refund Arbitration

🕒 SLA Target: < 24h Settlement SLA

1 **Grievance Review:** Open `/admin/refunds` to inspect dispute tickets, patient audio notes, and cancellation reasons.

2 **GPS Telemetry Audit:** Cross-check caregiver check-in timestamps and GPS geofence logs for shift completion proof.

3 **Refund Arbitration:** Select "Full Refund" or "Prorated Refund" based on platform policy and caregiver fault score.

4 **Ledger Balancing & Disbursal:** Click "Approve & Disburse" for direct bank gateway transfer and automated ledger reconciliation.

📄 Open Refund Desk →
